Dear José,

A few brief points, hoping that all is well with you. Certainly the latest developments - with the US Reps. give reason for optimism.

1. We received your material from London via Carmel. Céu leaves for K, D, B on 1 July and will take it, as well as the cash for both locations and laptop. She will be back 15 July and send you any mail by DHL.

► Please provide your schedules and addresses.

2. Rob Wesley-Smith is leaving his employment and has time (and some funds) to travel. He would like to know if you see some benefit if he went to the US or elsewhere for some speaking engagements or calls on people. He has quite a network of supporter contacts as you know. Would some 'warming up' be of use?
►If so, please provide suggestions.

3. I had a phone call from Goenawan Mohammad, Tempo editor, thanking me for the fax I sent some weeks back suggesting they interview you regarding your proposal. He said they would like to interview you either through their Rome-based or New York based correspondents. They were just waiting to see what the UN response to your proposal is(!?). He sounded quite friendly.

He assured me he would approach Alatas about giving me an appointment, and would advise me. I was a little puzzled by how friendly and easy it suddenly seemed.- We shall see what happens.

In case I am called to have a personal chat with Alatas about your proposal, I would fly to Jakarta at short notice.
►►Please brief me on what to convey.

Much success,
Un Abrazo

Juan
